Re: Changes to Input Specs for CSS Third Week and End of Term Registrant files

Dear Colleagues,

At the request of the Campus Directors for Disability Services, and after consultation with the campus registrars, UCOB Student Affairs is requesting a change to the description and values of the Disability Code data element submitted in the Third Week and End of Term CSS input files.

The rationale for the change is as follows:

- The current data element description refers to “permanent” disabilities collected by the Disabled Student Service Office, whereas the offices report both temporary and permanent disabilities.
- The current values do not adequately reflect the categories of disabilities being tracked by the campuses.
- The data from this code is shared with CPEC, and in turn is accessible to the public via CPEC’s website, which provides additional incentive to make sure the code’s description and values are accurate.

Technical Specifications: *(changes highlighted in yellow)*

Code Description:

Code indicating the type of permanent or temporary disability of the student ~~as reported~~ served by the Disabled Student Service Office. For students with multiple disabilities, only the primary disability is reported by the Disabled Student Service Office.

REF NO	Element Name	Position	Length	Format	New Valid Values
