[Terms of Use](#) · [Support](#) · [Privacy Policy](#)

All privileged users log in with their UCOP email address

2. Via the Data Operations hub - <http://data.ucop.edu/>

About the UC Data Operations Hub

The new UC Data Operations Hub is a collaborative effort by UCOP Institutional Research and Academic Planning (IRAP) and Data Services team to support the UC Data Warehouse and the UC Information Center by providing access, support and training on institutional data and data processes to UC employees.

ACCESSING THE UC REPORT CENTER

- » Sign-in to Cognos
- » Sign-in to Tableau

RESOURCES

- » Learning Calendar
- » UC TUG, The Tableau User Group
- » User Agreement
- » User Guides
- » Data Dictionaries
- » File Specifications

Welcome message

Welcome to the new UC Data Operations Hub! This site is aimed at providing information on the UC Information Center and its components which include the UC Information Center website, Business Intelligence and Reporting and Data Validation process.

All questions, comments and suggestions regarding this site can be forwarded via email to irap@ucop.edu.

The New UC Information Center

The University of California is continually influenced by both external and internal factors to re-evaluate its decision-making processes and the supporting BI and analytics technology architecture. Although UC has done a lot of work in making pertinent information that concerns the institution available to the public, there is still a need to create a single central source of information about the university that serves the UC community and the public at large.
